ggplot2

Workshop Series

Unlocking the full potential of 'ggplot2'
A three-part series Mondays in June, 11 am to 1 pm

Part 1 - June 5
Understanding the foundations of 'ggplot2'

How the "grammar of graphics" can help you build more information-rich visualizations

Register here

Part 2 - June 12
Crafting publication-quality data visualizations

Add finishing touches like custom colors, annotations, and multiplot figures

Register here

Part 3 - June 26
Exploring the wide world of 'ggplot2' extensions

Stuck in a rut? A showcase of extension packages to meet or exceed your data viz needs

Register here

If you are an R/RStudio user who already uses ggplot, these workshops are for you!
